

Plumbing Engineer / Designer

Mechanical/Electrical Engineering Consulting firm seeking a full time Plumbing Engineer with a minimum of (5) years' experience in a similar working environment.

We are seeking highly motivated, positive individuals with an excellent understanding of plumbing design fundamentals. Must also be well organized with the ability to juggle priorities for multiple project deadlines; with the ability to work independently and as a team member with a diverse group of individuals. Opportunity for growth and advancement for motivated candidates.

Primary responsibility of this position will include the following:

- REVIT MEP design experience preferred.
- Also proficient in ACAD, Microsoft Office Suite, etc.
- Preparation of design documents including drawings and specifications.
- Design of plumbing systems including fire protection, etc. for new and existing building projects for various building types.
- Site visits to identify existing equipment and clearances for new work.
- Coordination with Engineers, Architects and Owners.
- Managing junior staff.

Excellent benefit package including health and dental insurance, vacation time, 401K plan, etc.

Please send resume and cover letter to:
